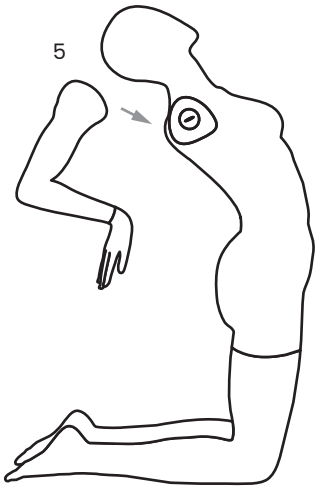
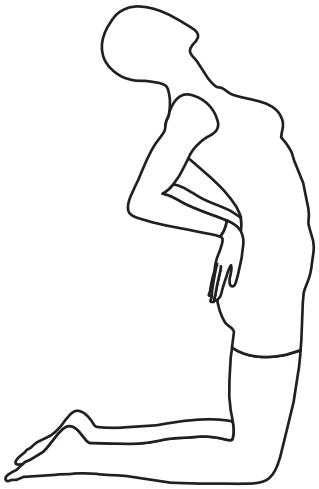
Connect the hands inserting them and turning untill they reach their final position.

STEP 5: Install arms to body

Connect the arms onto the torso.





HANDLING & CARE GUIDELINES:

We recommend you to (dis)assemble the mannequin on a soft and flat surface to avoid any damage.

Please always remove any jewellery before handling a mannequin to avoid scratches. We advise using the provided gloves to avoid marks and stains.

While dressing, one often inserts the arms through the neck opening of the garment. Please ensure that the hook-fitting is opposite from the chest and rotate the arm only when the position of the hook is in front of the insert in the body.
This way you avoid damaging the surface of the mannequin.

In order to clean the mannequin, please use a slightly moistened cloth with detergent that has been diluted with water. Minor stains can be removed with an eraser.
